THEO. P. HAUGHEY, Pres'L H. LATHAM. Cook.

CONDITION OF THE MARKETS

Lively Transactions in Grain, All Commodities Showing Increased Strength.

A Heavy Opening Is Followed by Marked Activity and Better Prices for Wheat-Corn Decidedly Strong-Provisions Dull.

MONEY, BONDS AND STOCKS.

An Increase of Activity, Followed by Weak and Slightly Lower Prices. NEW YORK, May 24.-Money on call was easy at 11 22 per cent., the last loan being made at 14; closing offered at 14 02.

Prime mercantile paper, 4 26 per cent. Sterling exchange was dull but steady at \$4.86? for sixty-day bills, and \$4.88? for demand. The total sales of stocks to-day were 268,611 shares, including the following: Canada Southern, 5,920; Delaware, Lackswanna & Western, 7,710; Delaware & Hudson, 2,715; Erie, 4,050; Lake Shore, 7,310; Louisville & Nashville, 5,700; Missouri Pacific; 3,370; Northwestern, 6,105: Oregon Transcontinental, 4,940; Reading, 71,900; Richmond & West Point, 8,634; St. Paul, 13,315; Union Pacific, I16,225; Western Union, 6,447.

The stock market was more active to-day than

yesterday, though it was quite dull all the fore-

yesterday, though it was quite dull all the foremoon; it was also firm to strong, but later a determined attack upon St. Paul, Reading and New England broke the entire list, and material declines were established. The opening was somewhat feverish and irregular, though most with a firm, higher market. Near futures were with a firm, higher market. Near futures were of the active list were from | ## per cent above last evening's closing figures. London was a buyer; there was much less pressure to sell in all parts of the room, and several favorable factors made the buying more confident, which had the effect of advancing the general list frac-tional amounts during the forenoon on a very business. St. Paul was disturbing factor, and Ft. Worth & Denver was specially weak, dropping before the close 3 per cent Missouri Pacific, Union Pacific and Delaware & Hudson were the strong stocks of the morning, though the gains of none exceeded ; per cent. The selling in St. Paul began again shortly after noon, a well-known house leading off with large offerings and the traders joining in. The weakness soon spread to the rest of the list, and Reading followed St. Paul very closely, the two stocks do inc over one-half the business done. It was announced that New England was to be broken before the close and a function of the part of the close and a function of the part of the close and a function of the part of the close and a function of the part of the close and a function of the part of the close and a function of the part of the close and a function of the part of the close and a function of the part of the close and a function of the part of the close and a function of the part of th before the close, and a furious attack was made upon that stock next and it yielded readily, the decline in it being, next to Fort Worth & Denver, the heaviest of the day. The activity in the market by the last hour had become great, and some stop orders were uncovered before the close, which had a still more discouraging effect upon the "bulls." Other events, however, were partly responsible for the decline—fresh engagements of gold for export, accompanied by sungry disquieting rumors and the continued pressure of short stock for sale. Under the circumstances the news of the action of the committee at Chicago to formulate a plan of agreemeat fell flat and had no effect whatever. The market became more quiet before the close, which, however, was active and woak at about the lowest prices of the day. Everything, almost, is lower to-night, and Ft. Worth & Denver lost 24; New England, 24; St. Paul, 14; Reading, 14; St. Paul preferred and Oregon

Transcontinental, each, 1 per cent.
The railroad bond market was, in sharp contrast to the dealings in shares, quiet and strong throughout. Sales, \$1,299,000. Baltimore & Ohio, Parkersburg sixes, rose 2, to 122; Chisago & Indiana Coal fives 21, to 1001; Delaware & Hudson, Pennsylvania sevens, 5, to 142, and

& Hudson, Pennsylvani Wabash seconds 6, to 91	a sevens, 5, to 142, and

Lard opened 223 points lower, later reacted 325 points and closed steady; Western steam quoted at 8.90c; June, 8.832 8.87c; July, 8.8328.88c; August, 8.8628.91c; September, 8.8928.94c; October, 8.8928.91c, city Batter steady but quiet; Western, 18@25c.

CHICAGO, May 24.-The conditions were favorable for a good volume of business on Change to-day, and speculative transactions in grain were quite spirited, the market being generally broad and strong. The heaviness which was apparent in wheat at the very opening, and which started prices slightly under last night, did not last long, and the first hour brought an advance of from le to lie to the various futures. There was a better outside feeling and an increase of buying orders. The foreign advices were not sensational as on yesterday. The Price Current estimate, as telegraphed, was Price Current estimate, as telegraphed, was that crop prospects were not improved since last week. In the pit there was covering by "shorts," a great deal of changing to August, which put that option at a premium over July, and good buying in December. It was rumored that Hutchinson was short and was scared, because he did little, and it was also talked that he had helped others sell their big loads because the crowd would take freely from him

and think nothing of it. The range of July was 85 c to 81 c, back to and up to 87 c. There was an unusual spurt of buying just before the close, and July touched 87tc and closed at 87t @ 873c, or about 12c over last night. Corn. everything considered, was strong to-day. Receipts were large and the grading high. Prices started about steady from last night, and during the first hour or two advanced about le for all futures. When the large estimate of 754 cars for to-morrow was made known, prices went off Dic, and for a time the market

especially in request. May opened at 33½c, and closed at 37c. July opened at 33½c, and closed at 33½c. Very little interest was manifested in the provision market, and the feeling was somewhat unsettled and prices irregular. Early in the day the market showed little more strength and prices ruled a trifle higher. Later, however, there was little more pressure to sell and prices gradually declined again. Trading in mess pork was mainly in transferring contracts at current differences. July pork opened at \$14.45, sold to \$14.55, and closed at \$14.45@14.47\(\frac{1}{2}\). July lard opened at 8.72\(\frac{1}{2}\)c, sold to 8.75c, reacted to 8.67\(\frac{1}{2}\)c, and closed at 8.67\(\frac{1}{2}\)c@8.70c. July short ribs opened at 7.72\(\frac{1}{2}\)c, sold to 7.80c, and closed at 7.72\(\frac{1}{2}\)c. The leading futures ranged as follows:

The arrivals of sheep and lambs were 5,923 head; quotations, sheep 3254c; lambs, 7284c. CINCINNATI, May 24.—Cattle—Receipts, 675; shipments, 140. Market strong.
Sheep—Receipts, 3,950; shipments, 1,500. Market weaker. Lambs easier at \$4,50@8.
Hogs—Market steady and firm; common and light, \$4.25@5.60; packing and butchers', \$5.50@5.90; receipts, 1,770; shipments, 1,275.

INDIANAPOLIS MARKETS. Trade Improving with the More Seasonable

INDIANAPOLIS, May 24. In most departments to-day there was more activity to business than has been noticeable for some time past, and with this a firm tone to prices on most articles. Dry goods, in spite of the unsettled condition of the wool and cotton markets, so far as prices are concerned, continues in a strong position. Wholesale men all talk bullish, as stocks at producing centers are low. Eastern merchants are not disposed to make concessions to insure sales. The last day or two buyers have come in in goodly numbers and mail orders have been quite satisfactory, and it is already evident that the sales of May, 1888, are to be in excess of those of May, 1887, notwithstanding the unseasonable weather which has prevailed for the greater part of the month. The iron market drags a little, and prices are weaker. Hardware men are having a big trade, and prices rule firm. Grocers are fairly busy. Coffees are still upward in ten-dency, and the new crop of teas is selling well at firm prices. East the prices range a little higher than in May, 1887. Sugars are moving freely and here prices are firm while East they are a little shaky. The hide market is more active than a month ago, but the room for improvement is so large that its posision is far from satisfactory. Leather dealers report trade good for the season; prices West have not weakened as in the East, but range as for some time past. The produce markets are active, the arrivals of strawberries and early vegetables since Tuesdy have been large and with this prices have broken, unless on really choice stock. Early vegetables raised nearer home are beginning to come on the market and are a decided improvement over those sold earlier in the season. Strawberries of both Illinois and Indiana growth are coming in and readily bring good prices, so superior is the fruit. Oranges and lemons meeting with better sale, prices firmer. The butter and egg market firm in tone. Poultry weaker at unchanged prices.

There was a good attendance on 'Change today, and bidding was quite spirited. The Indianapolis Market Report says: "The movement of grain, as indicated by receipts and shipments, is about the same as at time of last report. Wheat market shows but little change, as compared with yesterday. Corn is quoted higher. On the call No. 1 white sold at 59ic; afterwards 591c was bid, without sellers. Yellow and mixed grades are in limited demand at to better figure than yesterday. White sound ear sold at 57½c; yellow ear, choice Indiana, was offered at 58c, with 57c bid; mixed offered at 57c, with 55½c bid. Oats are in demend at prices a shade lower than yesterday. Bran dull, salable at \$15.25@15.50 spot. Offering at country points, basis Indianapolis freights, at \$15. Hay is in fair demand at prices a shade higher than yesterday. Track bids to-day ruled as follows:

Wheat-No. 2 Mediterranean. May Corn-No. 1 white..... No. 2 white..... No. 3 white..... No. 2 yellow.... No. 2 mixed Sound ear white... Mixed....

Oats-No. 2 white..... No. 1 timothy

Farm Notes. A Rhode Island farmer recently sold ninetythree lambs for \$1,000.

It is claimed by some that the peach will thrive best when grafted on the plum stock. Prof. E. W. Stewart, who is noted for his experience in stock-feeding, states that one ounce, or less, of oil-meal to a gallon of warm, sweet whey will make it nearly equal in feeding value to whole milk for raising a calf to three weeks old, and after that another quarter of an ounce may be safely added. The oil-meal should be dissolved in hot whey before mixing with that of right temperature to feed.

A horseman says: "I wish all horsemen knew the value of sunflower seed. It is not only one of the best remedies for the heaves, but a horse that has recently foundered can be entirely cured by giving half a pint twice a day for awhile in his feed. I took an otherwise valuable young horse last fail which was so stiff that you could hardly get it out of the stall, and in two weeks you would not know that anything was the matter with it, and it has been

The following occurs in a recent address beore a farmers' institute: Be assured that when the roll-call of successful farmers is ordered, he who refuses to experiment, who will not expend a dollar unless he sees two at the door knocking for admittance, whose movements for regular monotony outrival the seasons, whose footprints of this year fit snugly into those of the past, who occasionally puts doubt at rest by pricking himself to make sure that he is yet in the fiesh, will fail to respond."

To make salt-rising bread take a pint of new milk, set on the fire and stir in corn-meal to make a thick batter. Set it in a warm place all night. In the morning it will be light. Put a gallon of flour in a bowl, pour in the mush and mix with warm water and milk, equal parts.

Add a tablespoonful of sugar, a teaspoonful of salt and a small pinch of soda. Make a stiff batter, cover and keep warm. In one hour it will be light. Work in flour to make a stiff dough. Let it rise and work down. Let it rise again, mold in loaves, put in greased pans and bake. This bread requires a thorough kneading. When baked it should be solid, yet light. It is the sweetest and most wholesome bread a family can use.

Cypress vine, Indian shot and some other varieties of hard-shelled seeds require a long time to vegetate unless first prepared by pouring scalding hot water over them, in which they should remain until the water becomes cold Sweet peas, lupins, morning glories and four o'clocks should be planted about one inch deep. Such seeds as balsams, asters and centaureas should not be planted more than one half inch. Many of the small seeds may be sown on the surface with a little fine earth sifted over them, just enough to well cover the seeds, then gently pressed with a piece of board. While the minute seeds are vegetating, great care must be taken to keep the surface of the ground moist.

One Was Enough. New York Sun. Agent-Can I put a burglar alarm in your Citizen-Nop; I had one once.
Agent-What was the matter! Wouldn't it

Citizen-Oh, yes, it went off easily enough. Burgiars got into the house one night and car-Would Take No Chances.

First Lunch Flend-Wot are you doin' with Second Ditto-Peelin' the bark offen it. D'ye think I'm going to take any chances of ketchin'
